Final Harvest Ministries, Apartado 10, 03901 Antigua, Guatemala, Central América February 2019

Church

January and February have been quite busy months for us with a lot going on. We have had to replace the wooden support for the roof with metal support which has been costly. We have had high winds on some days and this has caused the metal corrugated iron to come loose. We have also painted the walls of the church and some people came to church one Sunday prepared not only with their bibles but also paint brushes, ready to start the work after the church service. Even the children were involved and painted their classroom. With so many people involved the church painting was completed within two hours!

We have also been having some awesome services with the power of the Holy Spirit pouring out during the service. Lives have been touched and also one young lady received Christ as her Lord and Savior.

The church dismantled!

Painting the church

Visit of Pastor Kingsley

We were blessed this month with the visit of Pastor Kingsley Armstrong, who is the director of International Gospel Outreach (IGO) located in the United Kingdom. Pastor Kingsley is an extremely busy man visiting many countries throughout the world, so we were more than grateful when he took the time to share a powerful word in our church. Thank you, Kingsley.

The Volcano People

Jeff chatting with some of the Volcano people. Jeff with missionary Andrew Loveall and a small visiting group from the USA

A poor volcano family Washing clothes in the small pond A house for a volcano family of 5

People forget very quickly about the tragedy of over 3,000 people being smothered alive by the Volcano Fuego tragedy back on 3 June 2018, and the Government has done nothing to help them. They have even lied about the numbers killed, but some missionaries are still working hard with the many displaced families who cannot ever return to their homes. This month we have purchased further food and clothes supplies and also bedding for a family with three children whom were found living under a tree with thin sheet of plastic as their roof (see photos above). At nighttime they just huddled together for warmth, as their bedding was the ground. All their washing was in a small polluted pond, and they used the same water which they heated up as drinking water! It is no wonder these people get sick and die. A friend of mine whom I work with has since found temporary accommodation for this family. But there are probably another 20 families just like them. We urgently need more funds to help these people who have nothing. If you wish to help, please send your donations marked "Volcano" to one of the addresses below. Thank you in advance.

Temporary Schooling for the Volcano Kids

Beatriz is a wonderful lady whom I work with to give help to the Volcano people. This past week she has set up a temporary school for the Volcano Kids and has 11 pupils. Three other ladies who are official teachers have given up their time to teach these kids free of charge for four days a week. A part of our funds have gone into purchasing books and stationery items. There are no funds to place these children into official schools and was the reason to start up the school. A missionary friend of mine told me a story that made me weep. He too, is working with the volcano kids. He is a teacher and has an official school close to the volcano Fuego that killed 30 of his schoolchildren. Somehow he has managed to start the school up again in temporary accommodation and has over 120 children being educated. He told me about one mother who at night worked as a prostitute to earn money to pay for her daughter's education. This is life in Guatemala, and this probably goes on elsewhere. Meanwhile he has spoken with the mother, and she received help to pay for the education of her daughter.

PRAYERS

1. A larger (Free) piece of land for our growing church.
2. Growing finances for our growing church
3. For the survivors of the Volcano Tragedy
4. Health & Finances
5. God's continued protection for us.
