July 2022

OPERATION NEEDED

Victoria is a wonderful Christian lady who goes to the local market each day, attempting to balance a basket of fresh-made tortillas on her head. She is no different from many women who try to eke out a living hoping that someone will buy her tortillas so that she will have enough to buy some black beans to go with her tortillas for her evening meal. But she can no longer balance the basket because her feet have become disfigured. Now she literally has to limp in pain to the market which is quite some distance away from where she lives. Each time I see her, she has a big smile that hides her pain. She told me that it is very painful and has been doing this for over five years, and naturally, the feet have worsened! I found out that the cost of an operation to fix the problem with her feet would be approximately \$1,500, which is way beyond what she can afford. I am asking if this report has touched your heart, and you would like to make a donation towards an operation, then please send anything you can afford to the address below marked "Victoria Op."

(Victoria with her tortilla basket)

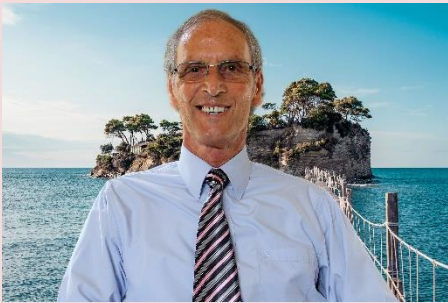

CHURCH

I am pleased to report that now the covid restrictions have been lifted, the church has slowly begun to grow with new members and has resulted in a new discipleship course being run by our pastor Juan Carlos. The youth also meet once a week and it is such a joy to see so many attending each week. We are still looking for a larger piece of land as the children desperately need more classrooms. Please join us in prayer for the right piece of land.

HEALTH

My son-in-law Edwin and my grandson Jeffrey, both went down with the coronavirus this month, but after a 3-day treatment with Ivermectin they were both well, and after seven days I allowed them to come into my house again! But then a week later, Ofelia, the lady who works in my house went down with the

coronavirus! I obviously sent her home, only to find out her daughter also had the virus. Now the concern was whether I also had the virus. I had two checks over the following days and was glad to report they were negative.

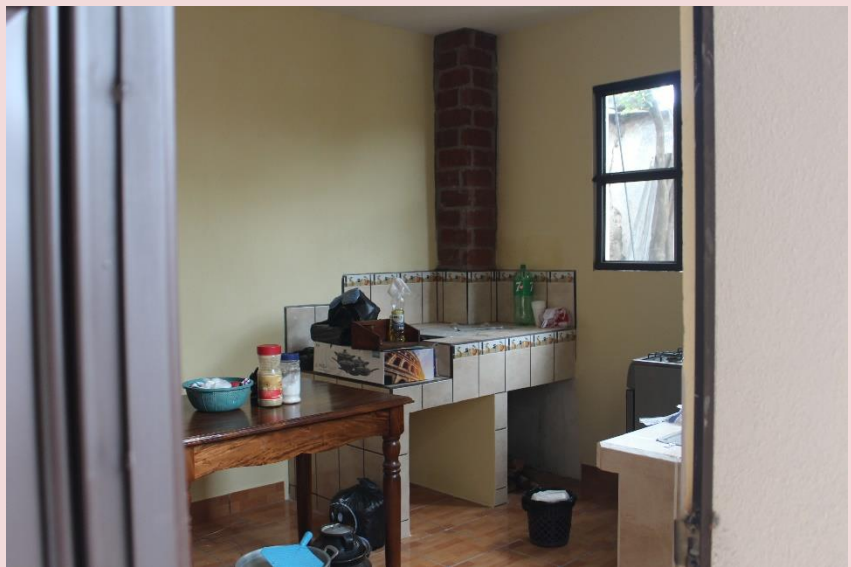

A few days later I was having a number of minor heart attacks again and was taken to the local medical centre where tests were carried out. My cardiologist changed some of my medicines and I am now recovering at

home. Naturally, I feel weak, but I am regaining my strength each day. The photo of me was taken just recently. Don't you think I look well?

HOUSES

Casa Dora with inside kitchen

Casa Ofelia with a chimney!

The first two houses are completed! eighteen years, and I felt I wanted to personally contribute, so she had the wonderful surprise of having a special oven with a chimney built inside the house for her tortilla making, plus an inside bathroom. The second house of Dora and Walter could only be built upwards. You will remember that they had a one-roomed house and they slept with their two children of 7 and 11 years in one bed! Now the parents and both children have their own bedroom! The roof has been built so that it can be used for drying their clothes, and the kitchen has.....wait for it.....an inside cooker with a chimney for tortillas. Both families have asked me to pass their grateful thanks to you all for your help and to say that a dream has now been fulfilled. As they spoke, they could not hold back the tears of joy. Neither could I. One has to be here to see the incredible joy of both families!

The final house (Casa Betty) has been started after a delay due to heavy rainfalls. We have almost all the funds in for the construction. If you want to help, please send your donation to the address below marked, "Casa Betty."

WEBSITE

I had to close my website a couple of years ago as hackers kept on putting viruses on it. I believe this has now been fixed and I have now re-opened it at www.finalharvestministries.net

VOLCANO FUEGO

The volcano which is not too far from my house explodes about every fifteen minutes, sometimes making the house widows shake as it makes a loud booming noise. One day this month it exploded so badly, that I thought we were going to have a repeat of the 2018 disaster when over 2,000 people died, covered in 12 feet of hot ash. As I looked outside my house, smoke was billowing out across the fields and roads. But praise God, it only lasted about half an hour. I am used to it, as I am to the earthquakes we have. This ministry will be ready to help should there ever be a disaster again.

PRAYERS

1. Finances to build the last of 3 houses.
2. A missionary couple to join in with this ministry.
3. The complete healing of my heart physically and spiritually.
4. More souls for the Kingdom of God
5. Thank you for your prayers.

God bless you all
